

Mrs. Arveseth's Class News

The Week of August 16th - 20th 2021

Message From The Teacher

Hi all! Welcome to 5th grade! I am thrilled to get to know each of you. This is my first year teaching and I have so many wonderful ideas to share with you all. I will be creating a bi-weekly newsletter that will be sent home, but you can also find it electronically at our class website: MrsArveseth.weebly.com. In the interest of your child's success, I also plan on keeping an ongoing dialogue with each of you so that we can both help one another make this the best year yet! 😊 It's going to be a fabulous year!

Reminders

- ✓ Sign up with Class Dojo using the code sent home with your child so that you can see all the awesome things we are doing in our classroom!

Weekly Task

- ✓ Have your student fill a brown paper sack with 5 things that represent them. We will share these in class this Thursday and Friday (August 19th and 20th).

Donations/ Volunteers

For those of you who came to back-to-school night and offered to volunteer time, thank you! I will reach out within the next few weeks to coordinate with you.

There is also a Google form on our website if you would like to help donate things to our class.

What's Coming Up In...

Science: Starting the year off with a bang and talking about volcanos and earthquakes!

Social Studies: Let's play detective and learn about the North American colonies.

Math: Takin' it easy. We will review math concepts from 4th grade.

Reading: Our focus is on procedures and initial evaluation of your student's reading abilities.

Writing: Free writing and journal prompts. We will begin working on a personal narrative.
